COREL GUIDELINES FOR THE USE OF CLIPART AND PROFESSIONAL PHOTO IMAGES

Corel products contain numerous clipart and photo images (collectively referred to as the "Images") which are either owned by Corel or licensed from a third-party. As a user of Corel products you are free to use, modify and publish the Images as you wish subject to the restrictions set out below. If you are uncertain as to whether your intended use is in compliance with the Guidelines set out below, we recommend that you seek the advice of your own attorney or legal counsel. Corel will not provide you with an opinion as to whether your use is in compliance with these Guidelines.

YOU MUST:

A. include the following notice in a conspicuous place (i.e. where similar proprietary notices are contained) in the proposed use:

"This product/publication includes images from CorelDRAW® 9 which are protected by the copyright laws of the U.S., Canada and elsewhere. Used under license."

YOU MAY:

A. Incorporate any Images into your own original work and publish, display and distribute your work in any media. You may not, however, resell, sublicense or otherwise make available the Images for use or distribution separately or detached from a product or web page. For example, the Images may be used as part of a web page design, but may not be made available for downloading separately or in a format designed or intended for permanent storage or re-use by others. Similarly, clients may be provided with copies of the Images (including digital files) as an integral part of a work product, but may not be provided with the Images or permitted to use the Images separately or as part of any other product;

YOU MAY NOT:

A. create scandalous, obscene, defamatory or immoral works using the Images nor use the Images for any purpose which is prohibited by law.

B. use or permit the use of the Images or any part thereof as a trademark or service mark, or claim any proprietary rights of any sort in the Images or any part thereof.

C. use the Images in electronic format, on-line or in multimedia applications unless all of the following are met:

i) the Images are embedded at no higher than a base resolution of 512 x 768;

ii) the Images are incorporated for viewing purposes only and a notice is included with the Images or in the product containing the images specifying that the Images may not be saved or downloaded and are only to be used for viewing purposes.
